

# VIK EN FRÖPÅSE

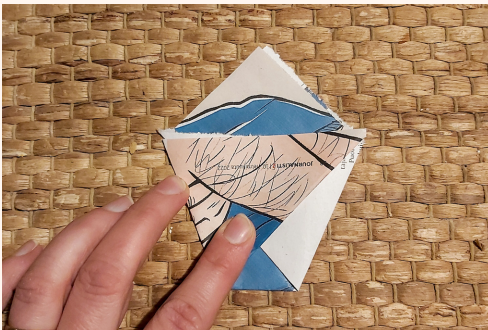

1. Börja med en kvadratisk pappersbit.

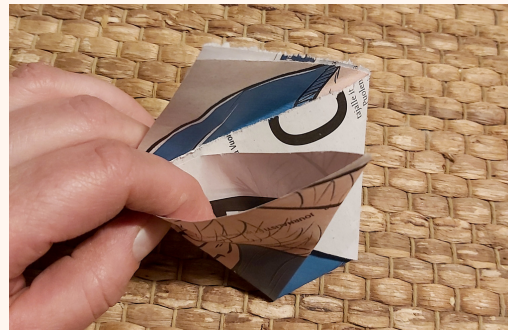

2. Vik kvadraten på diagonalen.

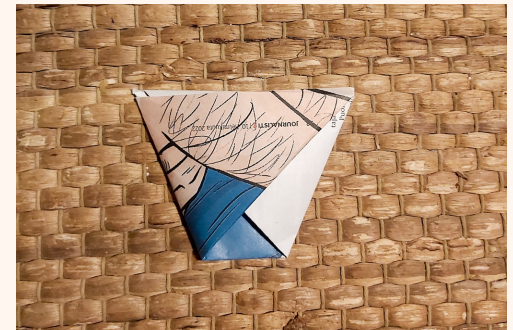

3. Vik in ena änden på trekanten mot den andra kortsidan.

4. Vik nästa ände mot motsatta sida.

5. Vik sedan den övre "trekanten", alltså locket, ner i den glipa som bildats när den sista änden viktes mot kanten.

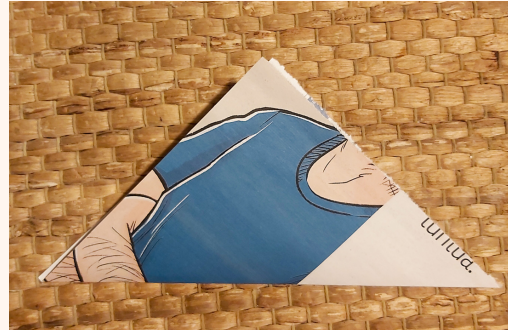

6. Fröpåsen är klar.

# ✦✦ TAITTELE SIEMENPUSSI ✦✦

---

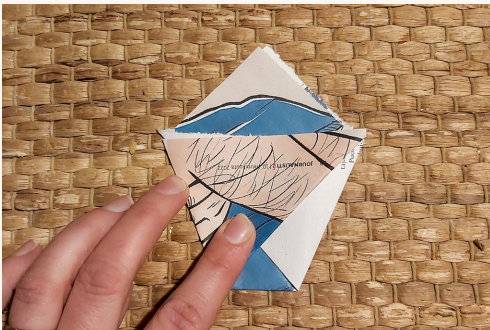

1. Tarvitset neliön muotoisen palan paperia.

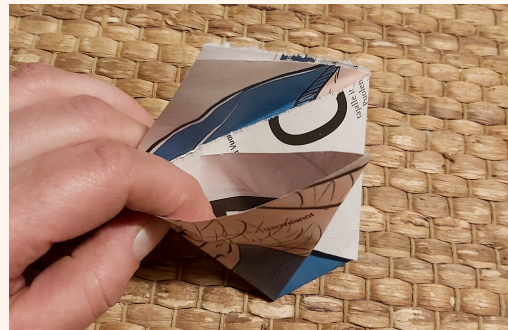

2. Taita neliö diagonaalisesti.

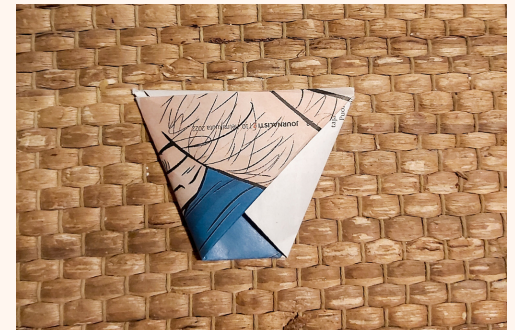

3. Taita kolmion toinen pää kohti toista lyhyttä sivua.

4. Taita sitten toinen pää kohti vastakkaista puolta.

5. Taita sitten ylempi "kolmio" (eli kansi) vakoon, joka muodostui, kun viimeinen pää taitettiin kohti reunaa.

6. Siemenpussi on valmis.

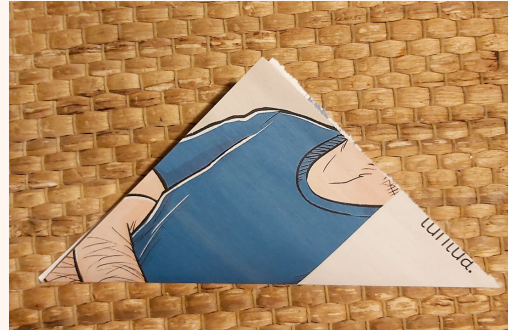

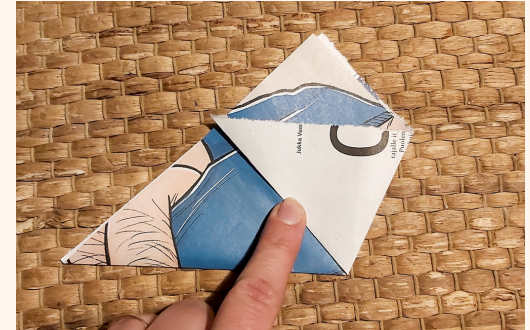

# FOLD A SEED BAG

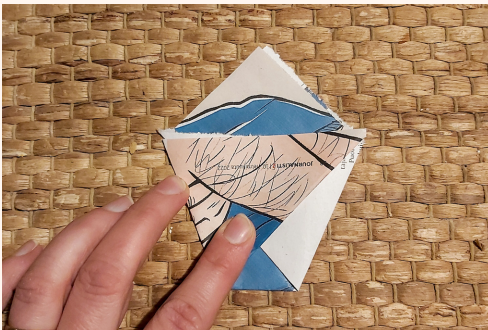

1. Start with a square piece of paper.

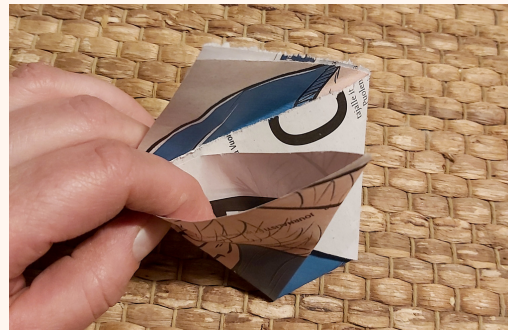

2. Fold the square diagonally.

3. Fold one end of the triangle towards the other short side.

4. Fold the next end towards the opposite side.

5. Then tuck the upper “triangle”, which will become the seal flap, into the opening, which was formed when the last end was folded towards the side.

6. The seed bag is ready.
